

Muhammad Shahmeer Talib

SOFTWARE ENGINEER

✉ shahmeertalib5960@gmail.com ☎ +92 332 7880702 📍 Lahore, Pakistan 🔗 [linkedin.com/in/muhammad-shahmeer-talib](https://www.linkedin.com/in/muhammad-shahmeer-talib)

PROFILE

Software Engineer with hands-on experience building full-stack products and AI-powered platforms. Skilled in Flutter, React, and Supabase with a strong focus on mobile development, e-commerce, and AI tool integration. Passionate about leveraging AI to build real-world products fast and efficiently.

EXPERIENCE

Technical Recruiter — Engineering Division 2023 – Present

Vera Tech Solution Limited · Remote

- Managed end-to-end recruitment pipeline for software engineering roles, reducing time-to-hire through structured technical screening across distributed teams.
- Built competency-based screening framework for backend, frontend, and mobile positions, aligning candidate skills to engineering team requirements.

Founder & Shopify Developer 2023

DS Mart · E-Commerce

- Founded and managed a Shopify-based e-commerce store, handling full business operations including store setup, product management, and customer experience.
- Customized Shopify storefront with Liquid and HTML/CSS — improving mobile responsiveness and overall store performance.

Founder & Technical Author 2022 – Present

FutureBit · Technology Blog

- Built and maintained a WordPress tech publication on AI and software engineering, growing organic readership through SEO-optimized technical writing.

PROJECTS

Proof Flutter · Supabase · PostgreSQL · Firebase

Secure peer-to-peer deal management platform with dispute resolution & reputation system

- Built a full-stack mobile app with secure authentication, deal management flows, and a scalable backend powered by Supabase and PostgreSQL — using AI tools throughout the development process.
- Integrated Firebase Cloud Messaging for real-time deal updates, deadline alerts, and dispute notifications — enabling smooth async user workflows.
- Implemented a trust & reputation engine with file attachments, deadline extensions, and dispute handling to reduce friction in peer-to-peer transactions.

LawMate React · OpenAI API · Firebase

AI-powered legal awareness platform focused on women's rights

- Built a bilingual AI chatbot with voice interaction using the OpenAI API, enabling legal guidance across language barriers for underserved communities.
- Developed the frontend in React, integrating emergency helplines, legal awareness articles, and AI-generated guidance into a single cohesive platform.
- Leveraged AI tools to accelerate development — from generating backend logic to content structuring and UI implementation.

Mini Aura Shopify · Liquid · AI Tools · Branding

Premium kidswear e-commerce brand — designed, built, and operated end-to-end

- Founded and launched a premium Shopify storefront, owning the full product lifecycle: theme customization, inventory management, and customer experience design.
- Used AI tools for content creation, product copy, branding, and SEO strategy — driving organic traffic and improving store conversions.
- Operated all business functions as solo founder including supplier coordination, order management, and data-driven merchandising decisions.
