### PROFESSIONAL SUMMARY

AI Developer who designs, builds, and ships mobile apps, web platforms, and e-commerce stores from idea to launch. Uses AI coding tools such as Claude Code and ChatGPT to build fast, while owning product planning, backend setup, integrations, debugging, testing, and deployment. Hands-on with Supabase, Firebase, Shopify, and WordPress, plus SEO and site performance. Built Proof (Android & iOS agreement app), WIOS (AI workforce platform), and LawMate (bilingual AI legal assistant).

### SKILLS

**AI Development:** Claude Code, Claude, ChatGPT, OpenAI API Integration, Prompt Engineering, AI Chatbots, LLM-Powered Features, Rapid Prototyping

**Backend & Platforms:** Supabase (Database, Auth, Storage, Security Policies), Firebase (Push Notifications), Shopify, WordPress, Elementor

**Development:** App Architecture Planning, API Integration, Debugging & Troubleshooting, Testing, Deployment (Vercel)

**SEO & Performance:** On-Page SEO, Technical SEO, Core Web Vitals, Google PageSpeed Insights, Content Strategy

**Product:** Product Planning, Feature Scoping, User Flows, UX Review

**Tech Stack (Project Experience):** Flutter, React, Next.js, Node.js, Flask, Google ML Kit, Google Maps API, Klaviyo

### PROFESSIONAL EXPERIENCE

#### Web Developer & SEO Specialist

2026 – Present

Skyline Marketing Group LLC

- Build business websites and landing pages with WordPress and Elementor, including the company's own animated agency website.
- Optimize client websites for SEO, Core Web Vitals, and page speed to improve search visibility and online presence.
- Create custom web solutions that support digital marketing campaigns and lead generation.

#### E-Commerce Manager

2025

Apex Falcon SMC Pvt. Ltd.

- Managed daily e-commerce operations, including product listings, inventory management, and customer experience.
- Improved on-page SEO and conversion strategies to grow online store performance and digital sales.

#### Technical Recruiter, Engineering Division

2023 – 2025

Vera Tech Solution Limited | Remote

- Managed end-to-end recruitment for software engineering roles, screening frontend, backend, and mobile developer candidates.
- Built a competency-based screening framework that matched candidate skills to engineering team requirements.
- Worked closely with engineering teams to streamline hiring workflows and reduce time-to-hire.

#### Founder & Shopify Developer

2023

DS Mart

- Founded and ran a Shopify store end to end: store setup, product catalog, orders, inventory, and customer experience.
- Customized the Shopify theme to improve mobile responsiveness and store performance.

#### Founder & Technical Author

2022 – Present

FutureBit (Technology Blog)

- Built and run a WordPress technology blog on AI and software development, growing organic readership through SEO-focused content.

### PROJECTS

#### Proof – Trust-Based Digital Agreement App (Android & iOS)

Tech: Flutter, Supabase, Firebase, Google ML Kit

- Built a cross-platform mobile app in 12 weeks that turns informal deals into verified, timestamped digital agreements, owning product design, app structure, backend, and testing.
- Set up the Supabase backend (database, authentication, file storage, security policies) and Firebase push notifications for real-time deal updates.

- Built the identity-verification flow (ID card scan with OCR, face match, liveness check) and improved OCR accuracy by adding blur detection and image-quality checks.
- Delivered 50+ screens and 15+ core features, including deal timelines, evidence uploads, and dispute-proof records.

#### **WIOS – AI-Powered Workforce Intelligence Platform (Web + Mobile)**

*Tech: React, Node.js, Flutter, Supabase, Firebase, Google Maps*

- Built a web dashboard and employee mobile app with a private AI assistant that answers plain-language questions from each company’s own employee, attendance, and policy data.
- Implemented attendance verification using GPS location, office Wi-Fi, and face/fingerprint checks to stop proxy check-ins.
- Delivered 15+ business modules (employees, departments, leave, roles, analytics) and 20+ AI automations across 40+ screens.

#### **LawMate – AI Legal Awareness Platform (Academic Project)**

*Tech: OpenAI API, React, Flask, Vercel*

- Built a bilingual (English/Urdu) AI legal assistant with voice input on the OpenAI API, helping women understand their legal rights in plain language.
- Designed the assistant’s prompts and response style to keep answers simple and calm, and added legal articles, case categories, and one-tap emergency helplines.

#### **Mini Aura – Shopify Storefront for a Premium Kidswear Brand**

*Tech: Shopify Online Store 2.0, Klaviyo*

- Designed and launched a mobile-first Shopify storefront in 6 weeks with custom sections, a size and colour selector, and advanced product filters.
- Cut page load time (LCP) from 6.2s to 1.1s and reached a 97 mobile PageSpeed score, lifting mobile conversions by 68% vs. the previous store.
- Set up Klaviyo email automations for abandoned carts, browse recovery, and post-purchase follow-up.

#### **Client Websites**

*Tech: WordPress, Elementor, Next.js, React*

- Built responsive, conversion-focused websites for Skyline Marketing Group and Angel Bail Bonds (WordPress, Elementor), and for Vector Labs and FIZ Business Solutions (Next.js, React).

### **EDUCATION**

---

**Bachelor of Science in Computer Science (BSCS)**

**2022 – 2026**

*Superior University, Lahore, Pakistan*

### **CERTIFICATIONS**

---

- Coding Fundamentals – Grasshopper
- Programming Fundamentals – Udacity

### **LANGUAGES**

---

English (Professional), Urdu (Native)
